AMOS AND THE PLUMB LINE

Amos was a sheep-herder and a farmer who was called by God to be a prophet. This meant Amos shared messages with God's people about how God wanted them to live. God gave Amos the image of a plumb line, which is a piece of metal attached to a string. It is used in construction to make sure buildings are straight. God wanted the people to remember that God's plumb line is one of love and justice. And God's plumb line should guide their life together.
