What do these stories have in common?

What does Jesus do in these stories? What do the healed people do?

CURIOSITY AND FAITH

Worship for the next month centers on common cliches people say--often when they are trying to be helpful--that may or may not have a Biblical basis. As adults, we think complexly and may find ourselves questioning what we once believed was true.

For kids, belief is often concrete and they want to know what is "true." Our preschoolers are experiencing the world and wonder through imagination--like artists. Our elementary students are looking at the world like scientists: evidence, repeat. Middle schoolers put ideas together like engineers, high school students want to think philosophically about the same questions.

Enjoy this opportunity to learn from and with your child!
